

setup

```
graph LR; A[setup] --> B[Core0_FrontBothCircleInterrupt Handler];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box, on the left, is white with a black border and contains the text 'setup'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains the text 'Core0_FrontBothCircleInterrupt Handler' in two lines.
